

Construction

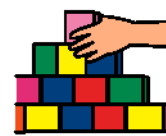

Center

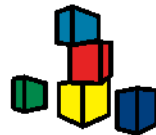

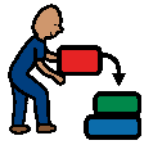

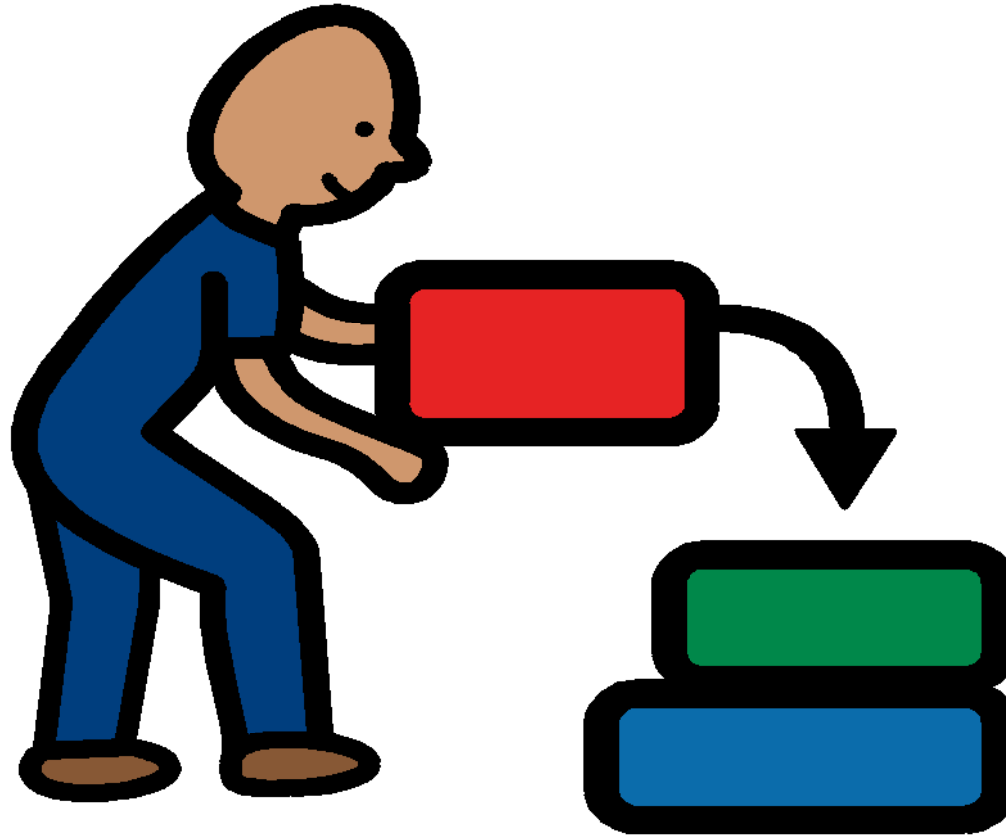

During center time I play with toys and my friends. One

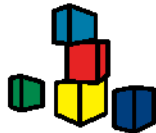

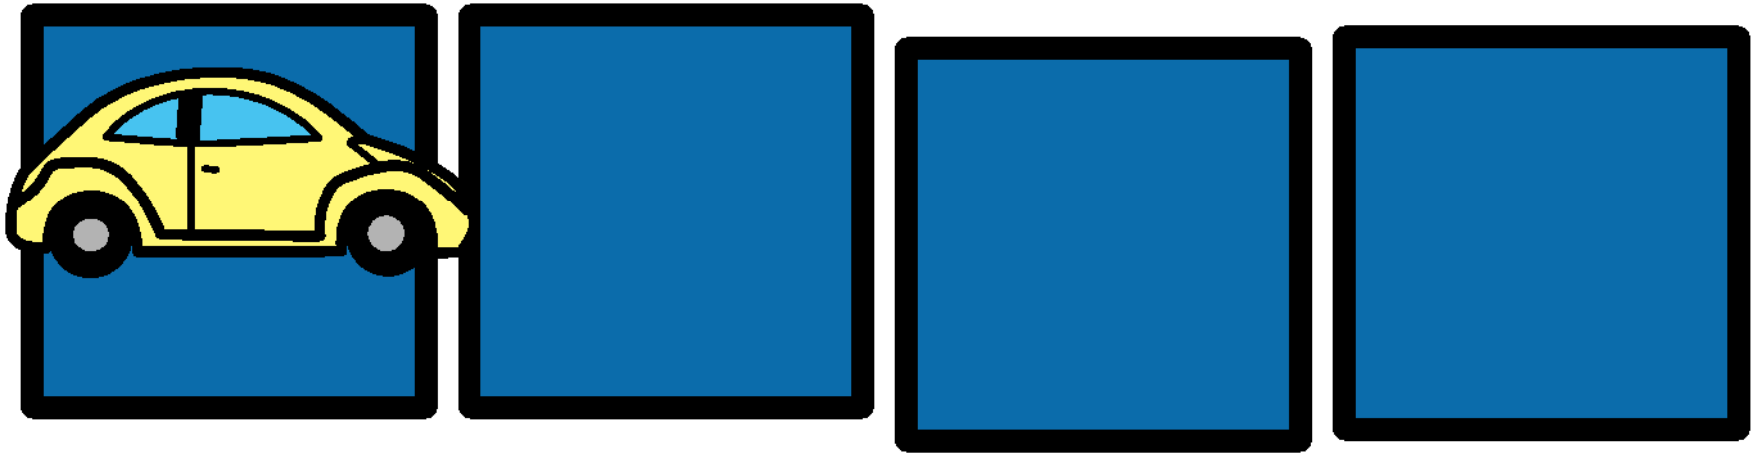

center I can choose is the Construction Center. There

are so many ways to play in the Construction Center!

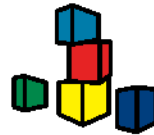

I can stack my blocks to build a tower.

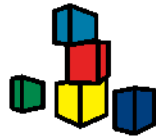

I can lay my blocks side by side and make

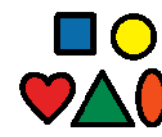

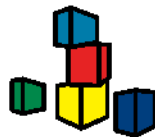

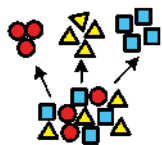

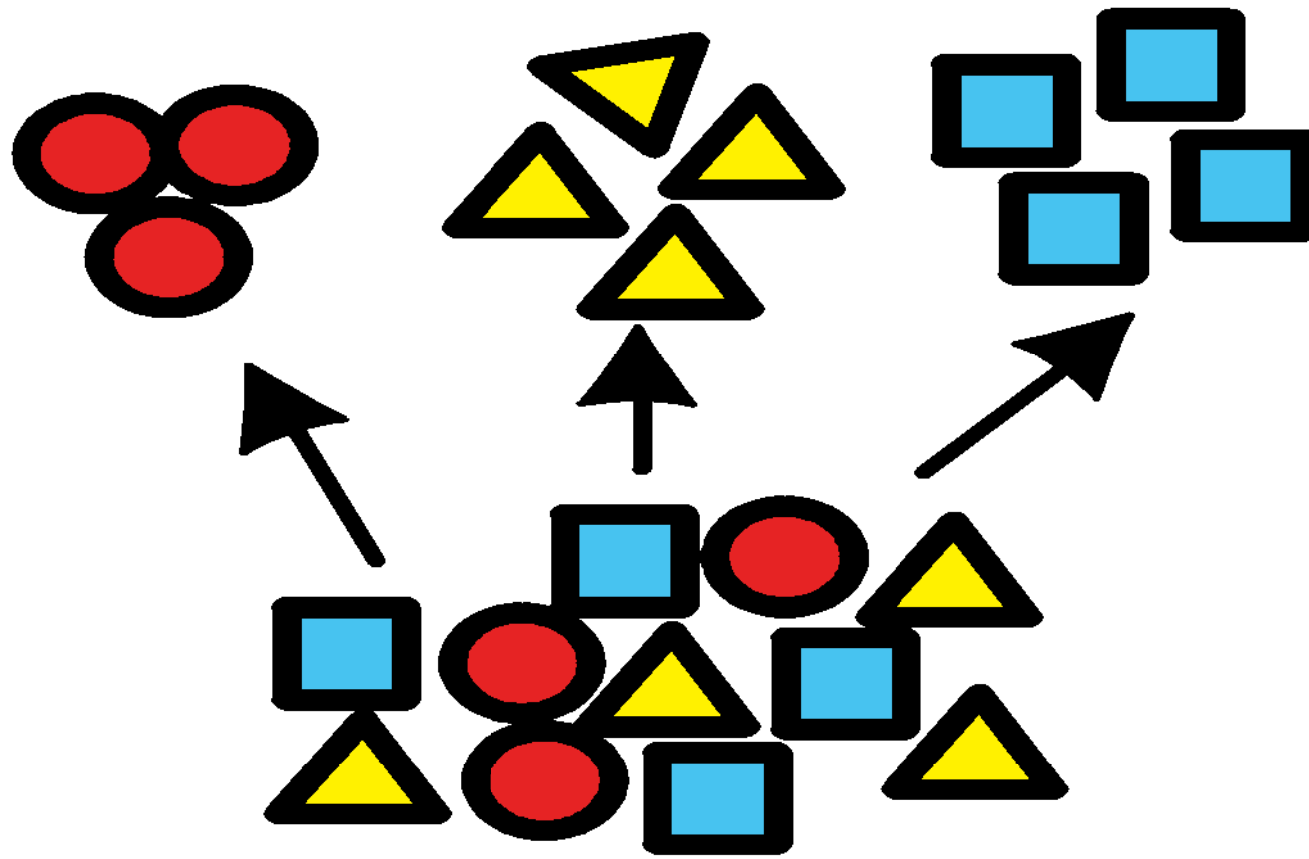

a road.

I can load my blocks into a dump truck

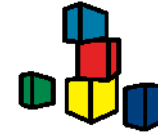

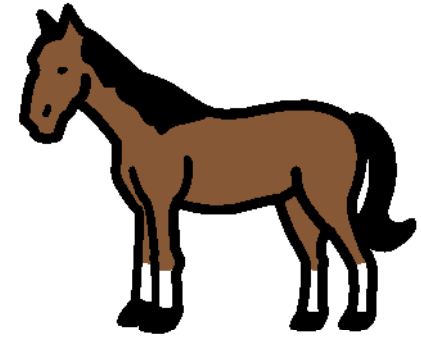

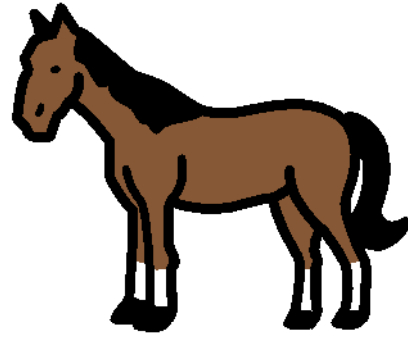

and push my blocks all around.

I can sort my blocks by color, shape, or

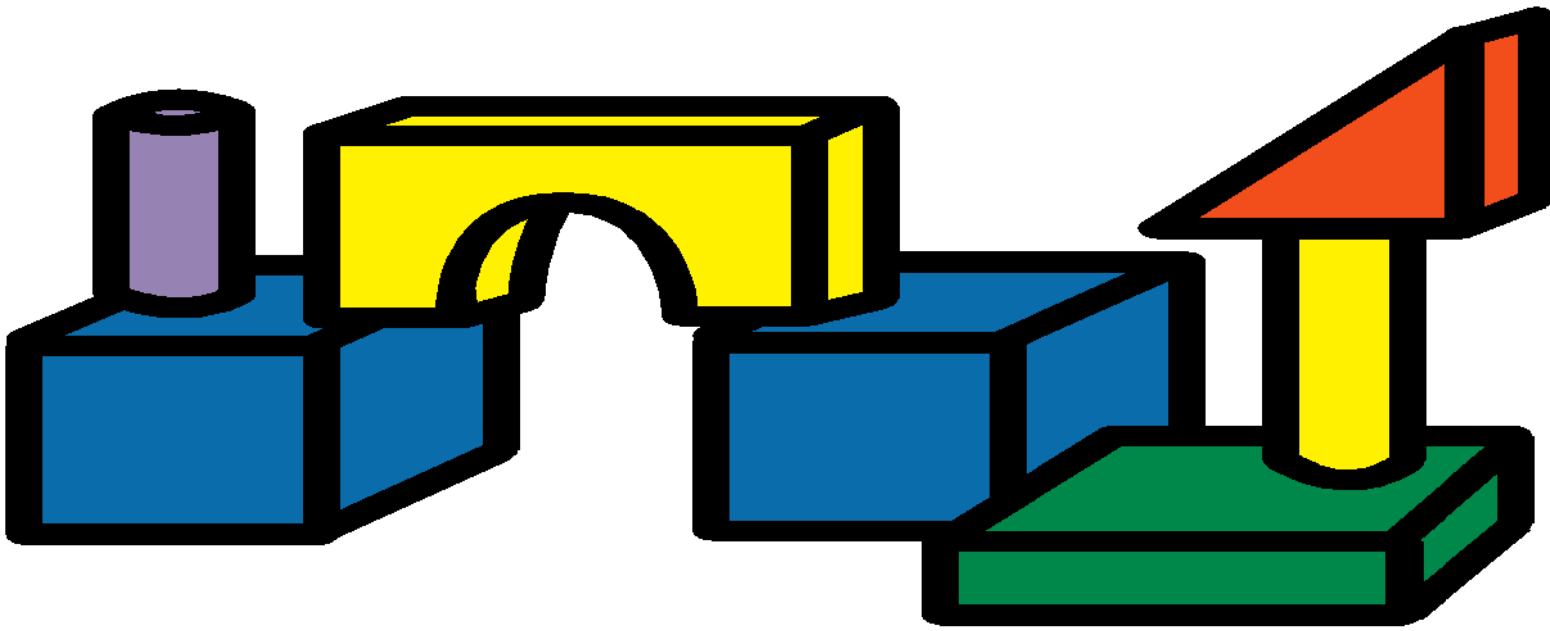

size.

I can make a pattern with my blocks, cars,

or animals.

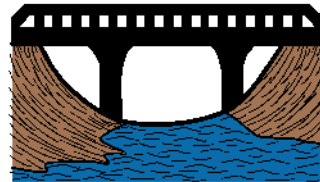

I

can

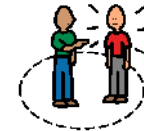

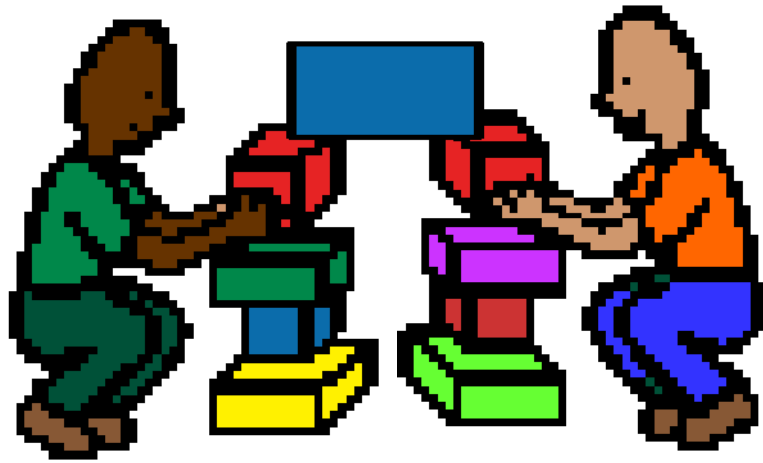

build

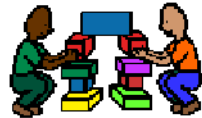

bridges

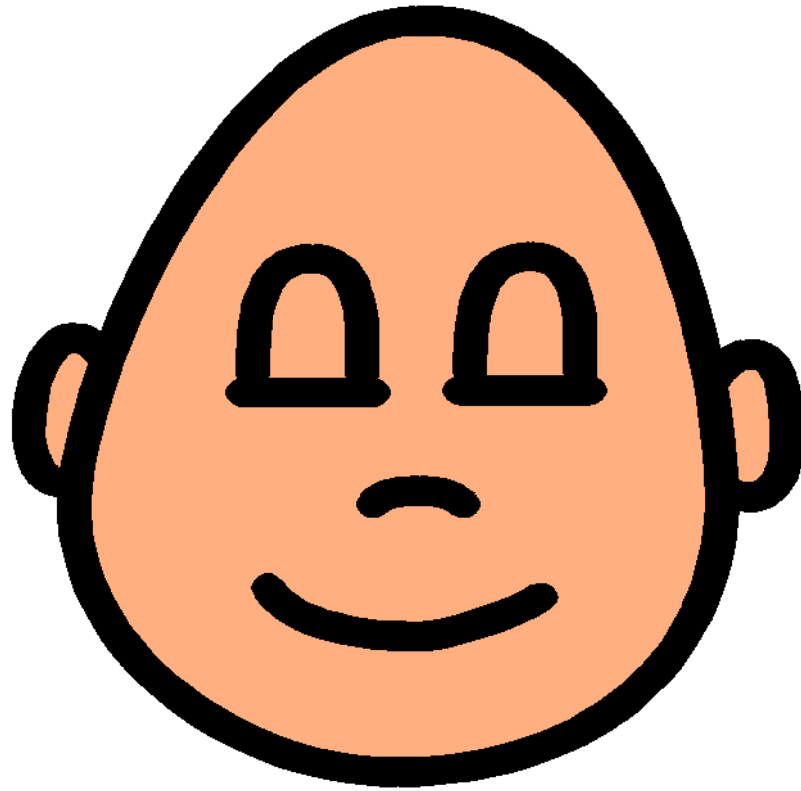

and buildings.

I can build with my friends, taking turns,

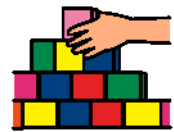

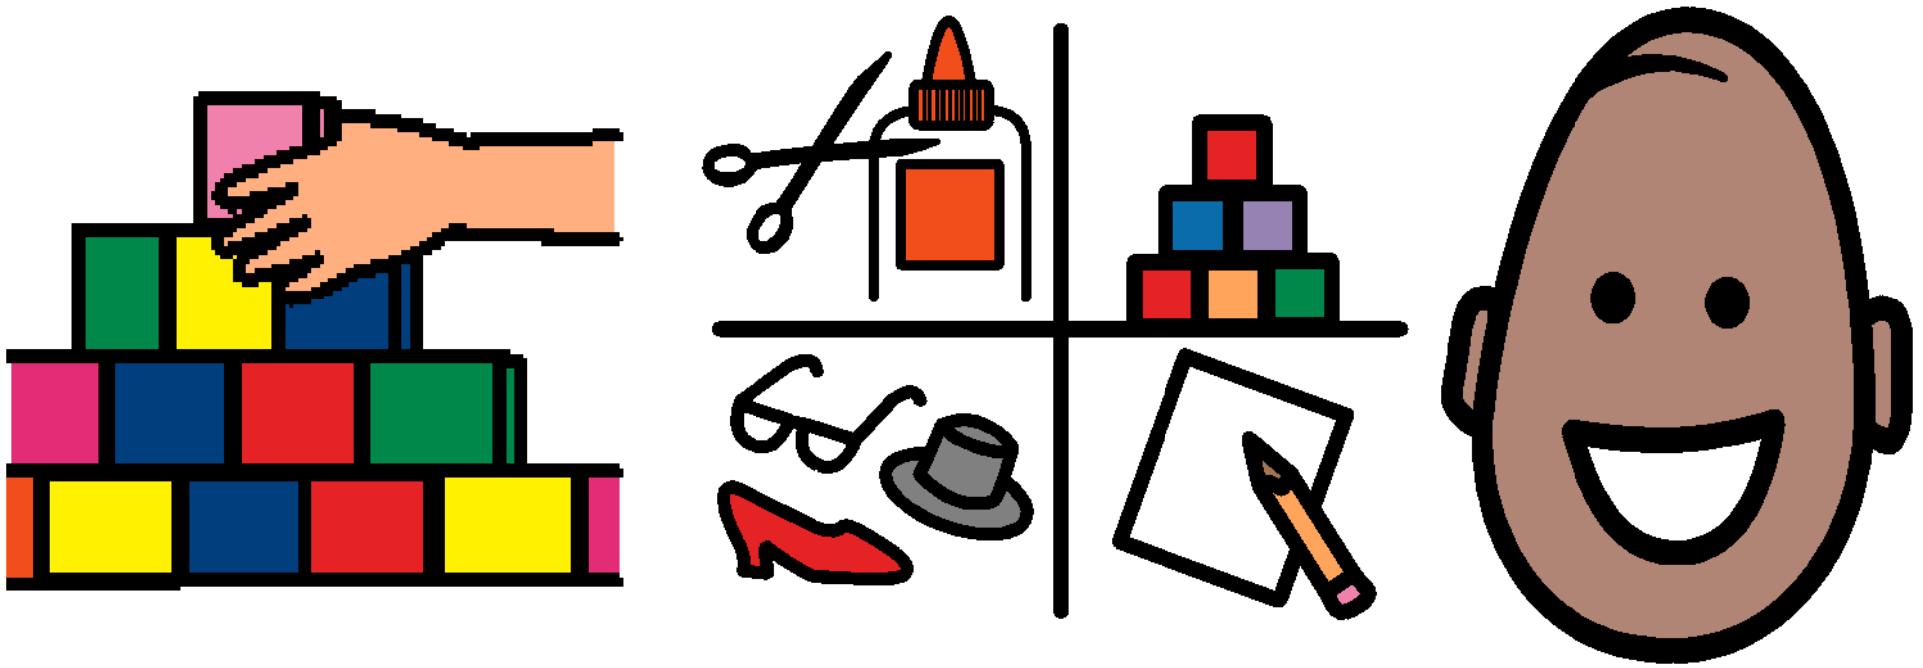

and working together.

I have to be safe with my toys.

When it is clean up time, I put my toys away.

The Construction Center is fun!
